NEW SHED FOCUS Edition No 62 October 2019

Presidents Report:

I am finding writing this newsletter is getting harder trying to think what do I write, it would be very appreciated with some assistance from you the member to have an article that we can share.

Extra Ordinary meeting was held by the Woodwork Group with a number of concerns regarding HBMS Rules and Regulations, Australian Standards, OH&S, Work Place Safety, Work Environment etc.

HBMS is run similar as a business and we have a well-equipped Work Shop with a lot of well skilled personal.

Inductions have been updated, thanks to Mark Schirmer, but members are to be audited on the use of power tools and equipment.

There is concern that some members help themselves to timber and hardware and not providing a donation and also the lack of ownership regarding the use of machinery, if you break or damage a machine do not hesitate owning up to it, we would then to be able to repair or replace this goes for power tools also.

The biggest concern was that members come in use what ever and do not clean up before they leave, it only takes a few seconds to clean your mess.

It has come to my attention that some members do not sign in or out when they attend the Shed, how do we account for you if something serious happens. We cannot check to see if you have gotten to the assembly area safely.

Thursday 19th September Les and I were invited to a morning tea at the Mercy Hospital Werribee. The HBMS assisted a couple of patients with a small donation, one was a gentleman who had had all his stomach muscles removed and required a brace and the other was a young woman who had had a stroke and for her rehabilitation the HBMS supplied her with a spade and a wheelbarrow (thanks to Noel Heapes for the wheel barrow).

Both the staff and the patients were very appreciated by our donations. We were presented a Certificate of appreciation from both the hospital staff and the patients.

More info regarding the two Car Shows with Mobil which I have just received. The C0mmittee of Management is asking for volunteers for these three days. The Mobil refinery has given us a substantial donation to assist them with these Car Shows.

Men's Shed Mobil 70 Anniversary Events

Please find enclosed a list of assistance required items that we would like you to please help out with for our upcoming events. These may alter as we move forward, but this is a good base to start the requests for assistance with the upcoming events.

Assistance required from shedders -

Use of event plan

Event bump in bump out

We will have vehicles displayed in our car park on Kororoit Creek road – see below

There will be some vehicles that can remain for the duration of the 2 events. There will be some vehicles that will only be displayed on either the Saturday or the Sunday. We will please need assistance safely moving these vehicles on and off site.

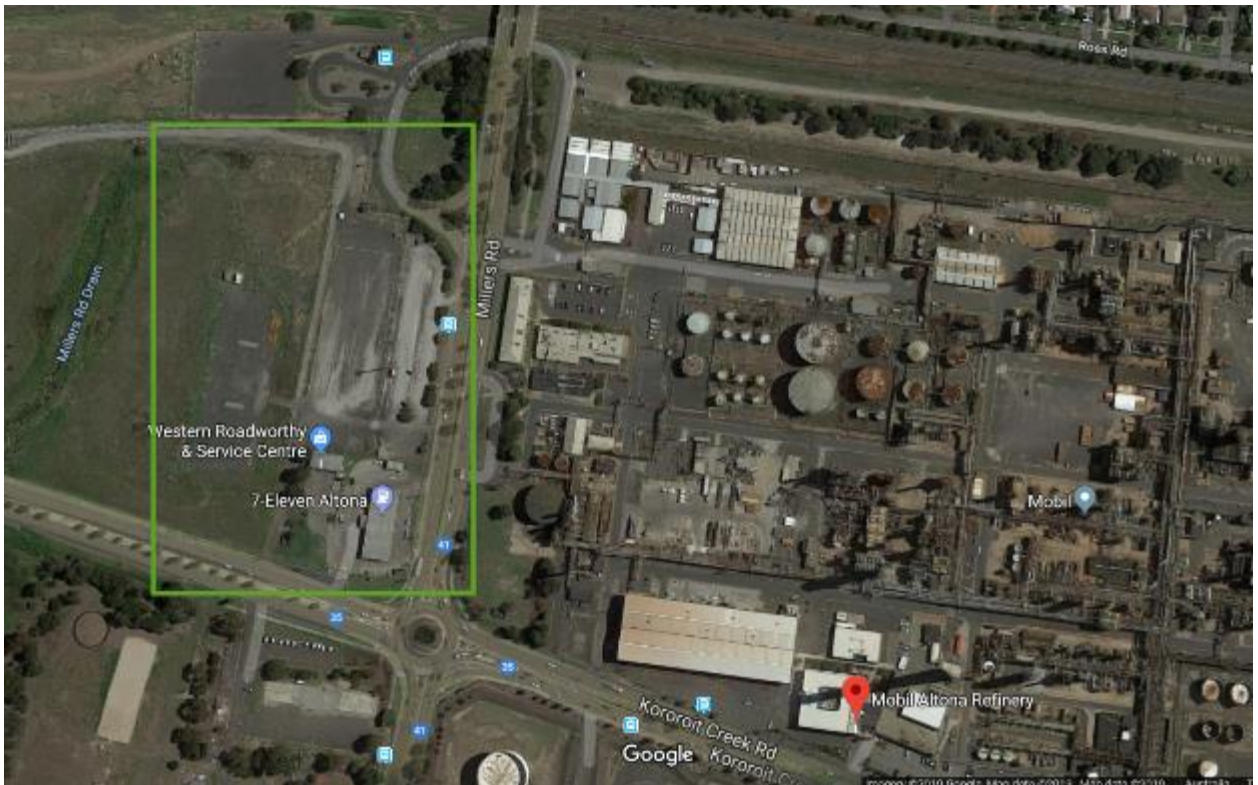

See enclosed gate access.

We will need some crowd assistance with getting people around site.

The boxes below indicated the access points into the refinery for the 2 days. The yellow box indicates the general access area to the site. This will be the entry and exit points.

The green box indicates where operational staff who will be running the refinery for the day and our team of ambassadors who are assisting run the open day will be parking.

The larger green box is the car park where all attendees will park. They will then come over the road at the crossing and will either go left if they have a bus tour or right if they only have general access. We would please like you to help assist with directing people in the right direction.

We are having community stalls on what I call the Grassy Knoll – which is where our old canteen use to be on the Cnr Kororoit Creek and Millers Road
See enclosed.

The purple box is the jumping castle.

The orange will be a screen truck that will be playing videos and have playstation games on it.

And then we are going to fit food stalls in and around that infrastructure.

I have just spoken with Rotary from last night and they are happy to do Sausages and Hamburgers with drinks for a stall. I mentioned that you guys will do Egg and Bacon Rolls and probably only do the morning shift Is that ok with you? Happy if you would like to do more. Let me know.

Also the green rectangle with blue boxes are the Community displays. I have put you down for an area in there. Is that correct? Otherwise you can have a display next to your food stall. It is up to you. I liked the idea of bringing a lathe – but I understand if that creates issues. Happy to work with whatever you like.

Logistics of the day

We are going to break down the day into 2 sessions

1 x Morning & 1 x Afternoon

There will be two types of tickets

General Access & Bus Tour

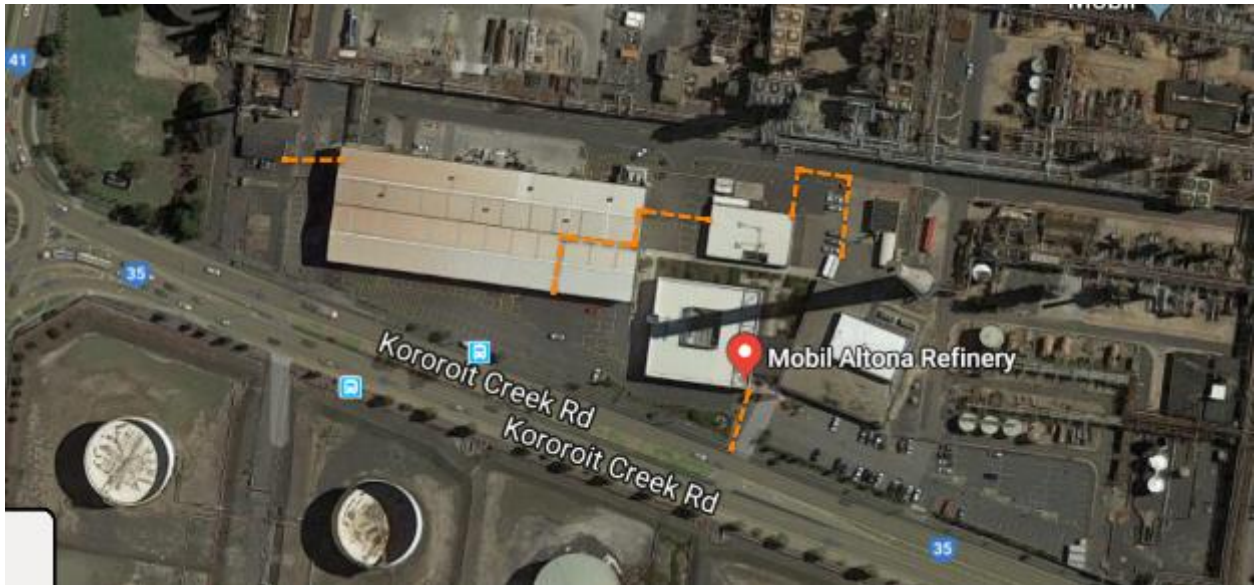

As you can see by my spread sheet – we are only able to get about 1/3 of the attendees on the buses. So they will have access to both the Tour and the General Access areas.

The General Access attendees will not be able to get a bus tour and will only be able to walk around the areas open to the public.

Between the morning and afternoon session we are going to go through all of the accessible areas and make sure all attendees have left the refinery.

This will allow all the “workers/volunteers” time to have something to eat and have a break. But it will also ensure trouble makers on the Community Day are not hanging around all day, and possibly working out how to make trouble.

Areas of the refinery will have temporary fencing up. We would like help making sure that everyone stays within and behind the temporary fencing. We will have security on the days – but if you we can help from you guys – extra eyes are always welcome.

I have been speaking with the Mobil Marketing Team about vehicles, They are not as helpful as I would like.

Would it be possible to get some more cars from your guys for the Open days as well?

President
